Jerusalem the golden! With milk and honey blest, Beneath thy contemplation Sink heart and voice oppressed, I know not, oh! I know not What social joys are there! What radiancy of glory, What light beyond compare!

And when I fain would sing them, My spirit fails and faints; And vainly would it image The assembly of the saints.

They stand, those halls of Zion, Conjubilant with song, And bright with many an angel, And all the martyr throng; The Prince is ever in them, The daylight is serene;

The pastures of the blessed Are decked in glorious sheen, There is the Throne of David; And there, from care released The song of them that triumph, The shout of them that feast

And they who with their leader

Are clad in robes of white!

Forever and forever

Have conquered in the fight,

The colored people have not been slow to apply to themselves the practical benefits of the passage of the Civil Rights bill. To-day they claimed admission to all parts of the galieries in both the House and Senate and not a doorkeeper had the intrepidity to dispute their right to enter. The consequence was that there was a very considerable diffusion of the sable element all through the spectators, and in the gallery for males their numbers very much preponderated over the whites. Even ladies of extremely radical influences can scarcely suppress their aversion to this wholesale abandonment of distinction of color, and in many instances were observed to gather up their skirts and make a hasty exit because of the compulso-

ry contact. Requisitions for freedmen laborers are still being received at their Bureau from various Southern States, which are anxiously offering very liberal wages for several thousands of them. The whole District of Columbia is now fairly swarming with colored people, and their longer residence in such numbers, it is felt with a good deal of apprehension, will be certain to breed disease and epidemics during the coming Summer. Gen. Howard is also of the belief that the density of their population will be productive of these evils and will earnestly endeavor to secure for them such labor contracts as will certainly result in tempting freedmen back to more permanent and regular employments.— Wash. Cor. Boston Post.

We publish below the Civil Rights Bill as it recently passed the Congress over the President's Veto: •

" Be it enacted by the Senate and House of Repre sentatives of the United States of America in Congress assembled. That all persons born in the United States and not subject to any foreign Power, excluding Indians, not taxed, are hereby declared to be citizens of the United States; and such citizens of every race and color, without regard to any previous condition of slavery or involuntary at for crit whereof the party shall have been duly convicted, shall have the same right in every State and Ter-ritory in the United States to make and enforce contracts, to sue, be parties, and give evidence, to inherit, purchase, lease, sell, hold, and convey real and personal property, and to full and equal benefit of all laws and proceedings for the securi-ty of person and property as is enjoyed by white citizens, and shall be subject to like punishment, pains, and penalties, and to none other, any law, statute, ordinance, regulation, or custom to the contrary notwithstanding.

"THE SUNDAY SCHOOL BANNER." And in the commencement of this little work aforesaid shall have authority to summon and call to their aid the bystanders or the posse comitatus of the proper county, or such portion of the land and naval forces of the United States, or the militia, as may be necessary to the performance of the duty with which they are charged, and to insure a faithful observance of the clause of the Constitut on which prohibits slavery, in conformity with the provisions of this act; and said warrants shall run and be executed by said officers anywhere in the State or Territory within the call to their aid the bystanders or the posse comitation to come up promptly to aid the undertaking. In our own State, there are very many Sabbath Schools, and from the best information we have, the scholarship is large and increasing, and it is from them we look for that patronage which is necessary to improve and keep floating, this native standard which we propose for their benefit. It is not for pecuniary gain that the "Banner," is established; it has for its aim higher objects, and if we succeed in our enterbanner, is established; it also for its aim higher objects, and if we succeed in our enterprise, it will be to us in after life a source of great satisfaction to know that, in our boyhood days, we gave a helping hand to Sunday Schools, the preparatory Schools for places of high trust and position, in the work of our Heavenly Father.

Its name safficiently indicates the object which Its name sufficiently indicates the object which is to control its editorial conduct. There is necessity however for the remark that it will not be denominational, but alike open to all the Sabbath Schools of this State for contributions, in which there is no spice of sectarianism. The "BANNER" will be issued monthly on handsome type, clear white paper and will contain fourteen columns reading matter, quarto length We trust sufficient encouragement may be of-fered to justify the undertaking.

Congress Water Is a cathartic, alterative and tonic, and is a valuable remedy for affections of the Liver and Kid-neys, Dyspepsia, Gout, Chronic Constipation and Cutaneous diseases. Is a most powerful preven-tive of the Fevers and Bilious Complaints, so prevalent in warm climates.

Empire Water Is a cathartic, and a valuable remedy for Rhenmatism, Derangement of the Liver, Diseases of the Skin, and General Debility. Its effects are most salutary in Lung Diseases. It is an almost sure cure for Scrofula, and the most agravated forms of Dyspepsia. As a preventive and cure for all Billious Derangements it stands unrivalled.

Columbian Water Is a tonic and diuretic of a highly beneficial character, and is a positive remedy for Diabetes, Gravel, Calculus, Irritation and Inflammation of the Kidneys and Bladder, and has most singularly active effects in restoring these organs when de-bilitated by long disease. WOMAN.

FEMALES, OWING TO THE PECULIAR and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to sufferings and ailments peculiar to the sex. Freedom from these contributes to small degree to their happiness and welfare, none can be happy who are ill. Not only so, but no one of these various female complaints can iong be suffered to run on without involving the general health of the individual, and ere long producing permanent sickness and premature decline. Nor is it pleasant to consult a physician for the reliet of these various delicate affections, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

HELMBOLD'S EXTRACT OF BUCHU

Hundreds suffer on in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to assert anything that would do injustice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious emplowment, unwholesome air and food, profuse menstruation, the use of tea and coffee, and frequent childbirth, it is oftener caused by direct irritation, applied to the mucous membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health and happiness of woman in all classes of society, and which, consequently, affect, more or less directly, the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half clothed and the mind unduly excited by pleasure, perverting in midnight revel the hours designed by nature for mind unduly excited by pleasure, perverting in midnight revel the hours designed by nature for sleep and rest, the work of destruction is half ac-

sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her situation in school at a later day, thus aggavating the evil. When one excitament is over, another in prospective keeps the mind morbidly sensitive to impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment and retention of organic health and strength; the exposure to night air, the sudden change of temperature, the complete prostration produced by excessive dancing must, of necessity, produce their legitimate effect, At 'last an early marriage caps the climax of misery and the unfortunate one, hitherto so utterly regardless of the plain dictates and recovered. the unfortunate one, hitherto so utterly regard-less of the plain dictates and remonstrances of her delicate nature, becomes an unwilling subject of medical treatment. This is but a truthful pic-ture of the experience of the ture of the experience of thousands of our young

ture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system; composed of what is called the tissue, which is, in common with the female breast and lips, evidently under the control of mental emotions and associations at an early period of life, and, as we shall subsequently see, these emotions, when excessive, lead, long before puberty, to habits which sap the very life of the victims ere nature has self-completed their developement. He of the Verlins ere nature has sen-completed their developement.
